Above all else, we’re here to help you make your money grow. In fact, every penny of profit after operating expenses is poured right back into this credit union to make our dividends higher, our loan rates lower and our products more innovative.

**Federally Insured**

It's a nice to know that unlike many other investments, you not only know what your rate of return will be, you also know your funds are secure. All of our Savings Accounts are insured up to $100,000 by the National Credit Union Share Insurance Fund. This fund is administrated by the National Credit Union Administration, a U.S. government agency. Individual Retirement Accounts are insured separately up to $250,000. You just can’t find a safer home for your nest egg.

**Certificate Accounts**

With a First Entertainment Term Savings Certificate Account, you earn higher dividends in exchange for a fixed term, all without the risks associated with many other high-yield investment choices. Your First Entertainment Certificate is safe, sound and highly lucrative.

**Dividends paid monthly and at maturity**

How do you want to receive your profits? You can allow your dividends to accumulate in your Certificate Account, transfer them to your Prime Savings Account or you can have the dividend mailed to you. Simple.

**Opening your Certificate is easy and fast. Start here**

You can open your account in just a few minutes with a minimum deposit of $1,000 and the simple application in this brochure.

Your money is never locked away from your reach—you can make withdrawals and deposits at any time by a variety of convenient methods.

**Money Market Accounts earn higher dividends**

As good as our Prime Savings Accounts are, our Money Market Accounts earn an even higher return. Dividends are earned daily and paid monthly.
